OpenEdition

Open-access digital publishing in the humanities and social sciences

OpenEdition is a national research infrastructure whose mission is to promote open-access electronic publishing in the humanities and social sciences. With over 96 million visits every year and more than 1,000,000 documents, OpenEdition has become a key player for open science in Europe.
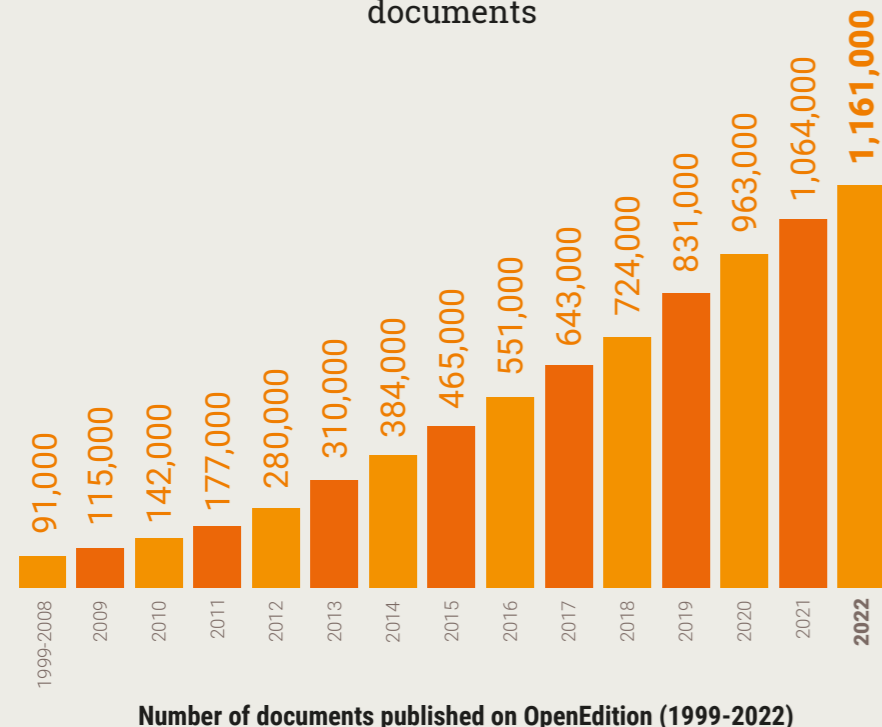

**A non-profit infrastructure**

Peer-reviewed content

**In 2019, OpenEdition celebrated its 20th anniversary!**

1,161,000 documents

Number of documents published on OpenEdition (1999-2022)

Year	Documents
1999-2008	91,000
2009	115,000
2010	142,000
2011	177,000
2012	280,000
2013	310,000
2014	384,000
2015	465,000
2016	551,000
2017	643,000
2018	724,000
2019	831,000
2020	963,000
2021	1,064,000
2022	1,161,000

3 challenges for the future

Transition to Open Access

OpenEdition Freemium
Program that enables the transition to Open Access via a sustainable economic model based on the participation of libraries

Content + Services + Free + Premium

HTML / PDF / ePUB / DRM FREE

READERS ↔ LIBRARIES ↔ PUBLISHERS

Benefits:
- High-quality academic content
- Available Open Access at least in HTML format
- Dedicated services

Benefits:
- Direct support to Open Access at a fair and transparent cost
- Dedicated services

Benefits:
- Resources to start the transition and make Open Access sustainable over the long term
- Visibility and indexing

300 institutions support our Freemium program. What about you?

Innovation

OpenEdition Lab
R&D program to develop new services for the dissemination of scholarly information

TWO GOOGLE DIGITAL HUMANITIES RESEARCH AWARDS — 2

CNRS MEDAL OF INNOVATION — 1

An open lab
The Lab opens up its data to the scientific community

Open science and society
Research experiments to strengthen the links between open science and society

Research on use patterns
Quantitative and qualitative research to understand how OpenEdition's platforms are used

Text and data mining
Text and data mining to develop new services and knowledge

Internationalisation

OPERAS
European research infrastructure for the development of open scholarly communication in the humanities and social sciences.

OPERAS gathers 58 organizations from 16 countries and is led by a 13 core members.
OPERAS is coordinated from France by OpenEdition and Huma-Num.
