

Lyrasis Open Access Community Investment Program

The **Lyrasis Open Access Community Investment Program** provides a community-driven framework that enables multiple stakeholders to evaluate and collectively fund Diamond Open Access journals.

Sustainable

Investments in OACIP support costs of labor, infrastructure, contingency, and innovation of each journal for five years

Principle-aligned

The **OACIP Criteria Form** enables investors to make principled spending decisions and strategically fund programs that align with their missions

Inclusive

Published by nonprofit publishers - university presses, library publishers, independent publishers - to sustain bibliodiversity, equity, and inclusion of scholarship

Collaborative

OACIP enables an array of communities – libraries, funding agencies, academic departments - to share the costs of funding scholarship

Efficient

OACIP centralizes the administration and funding of individual journals or across the entire OACIP portfolio

OACIP Funding Community
